Votes are recorded at booth level (Form 20) — a street search finds the booth(s) whose electoral-roll area covers that street. Party affiliations are not listed anywhere in this constituency’s Form 20 source, so party is shown blank. Axis fixed at 0–600 votes across every booth so bar lengths are comparable booth to booth. Colours use the dataviz style guide’s validated default categorical palette (fixed order, checked for colour-blind-safe adjacent-pair separation); every bar also keeps a direct text label so identity never depends on colour alone.
